

HOME SERVICES

Home services provide verified service professionals to customer. This site taking away the pain of finding the right home service expert to cater to your needs with reasonable pricing, customers can avail home services in certain locality with just a few click of button. To safeguard and ensure the customers safety all inhouse professionals have their backgrounds checked and verified. There are mainly three modules such as customer, Employee and Admin.

Customer

Registered users can book professionals by checking their ratings.

Employee

Employee can request to Admin to become a part of home services.

Admin

Approve the qualified employees and control all activities.

TABLES

1.login

Primary key:lid

Fieldname	Fieldtype	Size	Description
lid	Int	4	Primary key
